This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. The purchases for the year, as the appended list of additions will show, have been mainly confined to the special lines which a State Library should maintain.

The great end kept always in view is to develop a good working reference library with an economic expenditure of money — avoiding on the one hand large expenditures for rare books of antiquarian value, and on the other, the large mass of general literature which comes within the proper domain of a free circulating library.

Patient and persistent effort is constantly made to secure the largest possible collection of the current official reports and other publications of the general government and of the several states and territories.

Portrait of Charles Carleton Coffin.

The will of the late Hon. Charles Carleton Coffin contained the following bequest: —

"Having been an observer and recorder of events during the war of the Rebellion, having enjoyed an acquaintance with nearly all the public men of the middle period of the nineteenth century, having written several volumes relating to the history of my country, which I have endeavored to make authentic, having had a desire to cultivate and promote the spirit of patriotism, having a deep and abiding love for the Commonwealth in which I live, and a reverence for its institutions, I hereby give and bequeath to C. B. Tillinghast, librarian of said Commonwealth of Massachusetts, and to his successors in office, in trust, a portrait of myself, painted by Frank Tompkins, 1891, A.D., and now hanging in my library in Boston, said portrait to occupy such position in said library of the Commonwealth as said Tillinghast and his successors shall direct. I am prompted to make this devise upon the suggestion of said Tillinghast that such a devise will be eminently fitting and proper."

The portrait has been placed upon the wall of the private room of the Librarian.

Mr. Coffin was born in Boscawen, N. H., July 26, 1823, and died at Brookline, Mass., March 2, 1896.

He was a member of the Massachusetts House of Representatives in 1884 and 1885, was appointed by Governor Robinson a member of the Board of Lunacy and Charity Dec. 22, 1886, was re-appointed by Governor Ames in 1889, and resigned Dec. 14, 1889, having been elected a member of the Senate, serving in that body for the session of 1890.

C. B. TILLINGHAST,
Librarian.
